Looking for LOVE!

As the old saying goes, worst house in the best street most certainly applies to this beauty!

This Spanish style home was built in 1976 and has good bones to say the least. A larger than usual double lockup garage will lead you out to the lush fully fenced back yard. Upstairs the floors are solid hardwood timber that are in desperate need of a polish. 3 good size bedrooms, with built in robes and ceiling fans. 1 Spacious bathroom with separate toilet and a very below average kitchen. Soaring raked ceilings and your very own fireplace for the 6 days of the year that it's actually cold here on the Sunshine Coast. This family home just needs the love put back into it in the way of a makeover/ renovation. Unbeatable location! Contact agent to arrange an inspection. Raylea Willersdorf 0429 401 555
